Center for Creative Arts

SUMMER READING LIST
GRADE 11AP
Mrs. Howard
2018-2019

DIRECTIONS TO STUDENTS:

All students must read a teacher compiled packet of essays and historical documents during the summer **prior** to entering the **11th** grade. This packet will also include activities for completion based on the readings.

Students will also **read**: *The Crucible* by Arthur Miller
and
A book/novel of their own choosing

I will evaluate summer reading during the first **two** weeks of school using assignments, class seminar participation and selected projects from the packet provided. Students who are new to the district and have not received this list until the first day of classes will be allowed extended time and modified reading to complete the reading and project as deemed necessary by the teacher.

On the first day of classes, students will be provided (on the course syllabus) with a list of books they will need to access during the school year. These can obviously be checked out of a library or purchased at a new or used bookstore or accessed in digital format.
